For Your Sweet Home

The Future is here. Are you in it?

On your marks. Get ready. Go.....

The future is here. a whole world set apart from the mundane, everyday realm of wood and clay. It's called synthetics. It's the call of the future. It bends, it melts, it moulds. And, with every tick of the clock it sets your soul afire.

Discover a whole new world of sleek, user-friendly domestic products.....from buckets to baskets to laundry baskets to waste paper baskets to jugs and glasses to food containers to bowls and flour sieves, planters and collanders, trays and trollys, vacuum flasks and more. Where innovation encounters excellence, advantage blends with elegance. and above all design and quality are made to practical perfection. One hundred percent virgin plastic to start with, our products are which free of health and environment bazards. Where is food retains its taste, freshness and nutritional value.

Our quality products and attractive designs are cherished by quality-conscious folks, approved heartily by beauty-lovers the world over. No wonder we are welcomed in over twenty-five nations of the world. More than countries than our competitors can even dream of. Because, apart from the world of polymers and dies, casts, moulds and models there is something new coming up today It's the call for creativity, modern-day comforts. Where shapes and sizes dissolve into a bright, exotic range of colours. Where the pledge of perfection lingers on. And customer satisfaction continues to remain the name of the game.

Come, check out all for yourself the latest trendy, stylish, chic, smart and fashionable products laid out for you in this spread. Our design team progresses along with you..... with the times. Little wonder then, that we have been honoured with the PLEXCONCIL award, one of India's most prestigious export awards for the best plastic - ware exporters.

"At Ratan Plastics, we say.....

You build the house, let us make it a home. The best home in the world"

Let us extend ourselves to you.
